

QGIS Application - Bug report #3088
QgisMapServer: trimmed xml

2010-10-06 08:34 AM - Mavka -

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	Build/Install	
Affected QGIS version:		Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed
Crashes QGIS or corrupts data:		Copied to github as #: 13148

Description

OSGeo4W / qgis build 14343

Sometimes (not always) xml-answers are trimed.

Example 1:

Q:

http://localhost/qgis/qgis_mapserv.fcgi.exe

A:

```
<ServiceExceptionReport version="1.3.0" xmlns="http://www.opengis.net/ogc" >
  <ServiceException code="ServiceNotSpecified" >Service not specified. The SERVICE parameter is
  mandatory</ServiceException>
</ServiceExceptionReport
```

The last quoter '>' is trimmed

Example 2:

Q:

```
http://localhost/qgis/qgis_mapserv.fcgi.exe?
SERVICE=WMS&VERSION=1.3.0&
REQUEST=GetCapabilities
```

A (incorrect):

```
...
<Exception>
  <Format>text/xml</Format>
</Exception>
<Layer queryable="1">
```

A (correct):

```
...
<Exception>
  <Format>text/xml</Format>
</Exception>
<Layer queryable="1">
  <Name>my_layer_name</Name>
</Layer>
</Capability>
</WMS_Capabilities>
```

But when I use 'WMS Inspector' (Firefox addon), all answers done correct.

History

#1 - 2010-10-06 12:26 PM - Jürgen Fischer

- *Resolution set to fixed*
- *Status changed from Open to Closed*

fixed in commit:2e43a95e (SVN r14346).
