

QGIS Application - Bug report #3149

3D coordinates export fails with ftools

2010-10-22 08:08 AM - estelle -

Status:	Closed	
Priority:	Low	
Assignee:	cfarmer -	
Category:	Python plugins	
Affected QGIS version:		Regression?: No
Operating System:	All	Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed
Crashes QGIS or corrupts data:		Copied to github as #: 13209
Description		
I had some problems with a shapefile in qgis. This shape includes 3D GPS points. When using : Vector/Geometry Tools/Export-Add geometry columns (in order to get the coordinates), the function simpleMeasure (in doGeometry.py) returns zero. You can try to replace the old line: if inGeom.wkbType() == QGis.WKBPoint: by the proposed fixed line: if inGeom.wkbType() in (QGis.WKBPoint,QGis.WKBPoint25D):
