

QGIS Application - Feature request #3179

File Filter on load dialogs

2010-11-01 10:33 AM - Alex Mandel

Status:	Open	Resolution: Copied to github as #: 13239
Priority:	Low	
Assignee:	nobody -	
Category:	Data Provider	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
<p>Seems like there's a need for a file filter that is the concatenation of the providers available. So that the default vector filter is "All Vector Formats" which is different from All Files ().</p> <p>For example: (.shp, *.kml, *.gml)</p> <p>Would make it much easier to browse through your files looking for layers to add which might be a mix of formats. It wouldn't actually matter to me if the menu remembered my choice if it always went back to this generic option to start.</p> <p>This could also apply the Raster formats.</p> <p>Setting the default is part of related #2298 #3175</p>		

History

#1 - 2011-12-16 01:54 PM - Giovanni Manghi

- Target version changed from Version 1.7.0 to Version 1.7.4

#2 - 2012-04-15 10:10 AM - Giovanni Manghi

- Target version changed from Version 1.7.4 to Version 2.0.0

#3 - 2012-10-06 02:29 AM - Pirmin Kalberer

- Target version changed from Version 2.0.0 to Future Release - Nice to have

#4 - 2017-05-01 12:42 AM - Giovanni Manghi

- Easy fix? set to No

- Pull Request or Patch supplied set to No
