QGIS Application - Bug report #324
fatal error loading linear shape file

2006-10-03 03:29 AM - PUPPO -

Status:	Closed			
Priority:	Low			
Assignee:	Gary Sherman			
Category:	Data Provider			
Affected QGIS version:		**Regression?:**	No	
Operating System:	Windows	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	worksforme	
Crashes QGIS or corrupts data:		**Copied to github as #:**	10383	

Description

When I try to load a linear shape file the 8.0 Titan version of quantum gis exit unispectly without saving.

The others shape files (point and polygon) dont make the same mistake.

With 7.4 version the same shape file run without problems.

Could you please attach the shapefile which causes the crash? Or if it's too big to be uploaded here in Trac, upload it to some place where we can download it and test. Thanks.

Without further input from the submitter, this is impossible to diagnose.

#3 - 2006-11-16 02:19 PM - Martin Dobias

- Resolution set to worksforme

- Status changed from Open to Closed

More than one month no answer, I'm closing the ticket.
