QGIS Application - Feature request #3242
Bug in postgis layer geometry type detection when a filter is applied.

2010-11-22 03:41 PM - Jeremy Palmer

Status:	Closed			
Priority:	Low			
Assignee:	Jürgen Fischer			
Category:	Data Provider			
Pull Request or Patch supplied:			**Resolution:**	fixed
Easy fix?:	No		**Copied to github as #:**	13302

Description

When adding a [[PostGIS]] layer and the estimated table metadata option is turned on, you can not apply a filter to layer and "Unknown geometry type" error is raised.

The reason for this is the SQL to determine the layer geometry type was corrupted in r13340 (add custom query capabilities).

This patch fixes the query.

History

#1 - 2010-11-22 09:32 PM - Jürgen Fischer

- Resolution set to fixed

- Status changed from Open to Closed

applied in commit:ff165c34 (SVN r14749). Thanks.
