

QGIS Application - Feature request #3258

Add "Topological edit" checkbox to the new snapping window

2010-11-26 11:25 PM - Paolo Cavallini

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	Digitising	
Pull Request or Patch supplied:		Resolution: fixed
Easy fix?:	No	Copied to github as #: 13318
Description The button "Allow topological editing", now left in Project properties, should be moved to the new Snapping Options window, a much more logical and convenient location. Possibly also Avoid intersection option could be moved.		

History

#1 - 2010-11-27 07:52 PM - Nathan Woodrow

I have added my patch to move the above features to the snapping dialog. The code was copied from the project properties code so the functionality should be the same and I have done testing and it seems to work the same.

I also renamed the dialog title as it used to be in the Digitizing section in the project properties dialog, so I change the dialog name to "Snapping and Digitizing Options".

#2 - 2010-11-28 09:23 AM - Jürgen Fischer

- Status changed from Open to Closed
- Resolution set to fixed

applied in commit:e7428cd0 (SVN r14779)

#3 - 2010-11-28 11:03 AM - Paolo Cavallini

- Status changed from Closed to Feedback
- Resolution deleted (fixed)

Great, thanks.

One more suggestion: wouldn't it be better to add "Avoid intersection of new polygons" as an additional flaggable column in the main snapping table, instead of in a new popup?

#4 - 2010-12-01 05:56 AM - Jürgen Fischer

- Resolution set to fixed
- Status changed from Feedback to Closed

oh, missed the patch - reimplemented in commit:978cc79f (SVN r14798).
