QGIS Application - Bug report #3290
Ref. IGNF:LAMB93 not shown in recently used SRS

2010-12-03 07:40 AM - Jean-Roc Morreale

Status:	Closed		
Priority:	Low		
Assignee:	nobody -		
Category:	Projection Support		
Affected QGIS version:		**Regression?:**	No
Operating System:	All	**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	fixed
Crashes QGIS or corrupts data:		**Copied to github as #:**	13350

Description

If you specify the projection LAMB93 from the IGNF register as the projection of the project, the CRS that is added to the recently used CRS list is the the ESPG projection code 2154.

Even if these two projections are supposed to be the same, the IGNF code has different parameters from the EPSG which impact transformation and localization.

This is causing problems when the user doesn't pay attention to it and rely too much on the text "Lambert 93", the IGNF should be present as it is and not replaced by the EPSG's one.

History

#1 - 2011-03-16 01:05 AM - Jean-Roc Morreale

- Resolution set to fixed

- Status changed from Open to Closed

fixed in trunk
