

QGIS Application - Bug report #3307

Plugin Installer declines to update plugin

2010-12-07 07:06 PM - Aren Cambre

Status:	Closed	
Priority:	Low	
Assignee:	Borys Jurgiel	
Category:	Python plugins	
Affected QGIS version:		Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:		Resolution: invalid
Crashes QGIS or corrupts data:		Copied to github as #: 13367
Description		
<p>Today I got a notice that my Plugins Starter Plugin may be upgraded from 0.3.1 to 0.3.2. So I go to Plugins > Fetch Python Plugins, select Plugins Starter Plugin, and hit Upgrade plugin.</p> <p>Even though I get a dialog saying Plugin reinstalled correctly, it never actually upgrades. The QGIS Python Plugin Installer dialog still shows 0.3.1 -> 0.3.2 for that plugin's version.</p> <p>Even if I close qgis and restart, I get the same problem. I even tried running qgis as an administrator (right-click on its Start Menu icon and select Run as administrator), and that doesn't fix it.</p>

- Resolution set to invalid
- Status changed from Open to Closed

Not a QGIS problem, it is a problem in the (3rd party) plugin. Contact the author of the plugin.
