<b>Description</b>		
<p>I tried to use OGR Converter plugin to save a shapefile in [[MySQL]]. There is no way to make it work. I Tried different syntaxes for mysql connection, but no way. This one:</p> <p>[[MySQL]]:mydb,host=localhost,user=myuser,password=mypasswd,port=3306</p> <p>takes few time to execute before "Could not establish connection" error appears.</p> <p>Anyway I'm able to run successfully ogr2ogr.exe (WIN) on command line and it works: syntax for cli is (as in <a href="http://www.bostongis.com/PrinterFriendly.aspx?content_name=ogr_cheatsheet">http://www.bostongis.com/PrinterFriendly.aspx?content_name=ogr_cheatsheet</a>):</p> <p>ogr2ogr -f "MySQL"</p> <p>MYSQL:"mydb,host=localhost,user=myuser,password=mypasswd,port=3306" -nln "tmp" -a_srs "EPSG:32638" "path/to/shapefile.shp"</p>
