Crashes QGIS or corrupts data:		**Copied to github as #:**	10396	

Description

I tried to use this function on Mac OS X.

I could not change default values for SRID and Geometry column.

I can turn on and off the checkboxes.

But, even though I turned off the checkbox, I could not change the default values.

Ahhh - I fixed that last night. Try again with the latest version out of svn.

- *Resolution set to fixed*

- *Status changed from Open to Closed*

No reply - it's fixed for me, so I'm closing it.
