

QGIS Application - Feature request #3405

[PATCH] Prompt for symbol overwriting

2011-01-13 09:18 AM - Alexander Bruy

Status:	Closed	
Priority:	Low	
Assignee:	Martin Dobias	
Category:	Symbology	
Pull Request or Patch supplied:		Resolution: fixed
Easy fix?:	No	Copied to github as #: 13465
Description		
<p>After creating new symbol in [[SymbologyNG]] there is no check for overwriting existing symbol with same name. This is a bit inconvenient.</p> <p>For example try this steps:</p> <ol style="list-style-type: none">1. Add any vector layer and turn on [[SymbologyNG]]2. Open layer properties and go to Symbology tab3. Create new symbol and add it to the library with name "test"4. Create another symbol and also add it to the library with name "test"5. Previous symbol will be replaced without any warning. <p>Here is patch that adds overwrite prompt before symbol saving.</p>		

History

#1 - 2011-02-21 02:27 PM - Martin Dobias

- Resolution set to fixed
- Status changed from Open to Closed

Applied in commit:47fa1ceb (SVN r15238). Thanks.
