

QGIS Application - Bug report #3429

Can't chose edit widget "Enumeration" for empty postgres tables

2011-01-21 12:21 PM - Anita Graser

Status: Closed	
Priority: Low	
Assignee: nobody -	
Category: Digitising	
Affected QGIS version:	Regression?: No
Operating System: All	Easy fix?: No
Pull Request or Patch supplied:	Resolution: invalid
Crashes QGIS or corrupts data:	Copied to github as #: 13489

Description

It's not possible to chose an edit widget of type "Enumeration" as long as the underlying table is empty.

You can test using:

```
CREATE TYPE rainbow AS ENUM ('red', 'orange', 'yellow', 'green', 'blue', 'purple');
CREATE TABLE teste
(
rain rainbow,
the_geom geometry
);
```

When one line is added, everything works as expected.

According to user cremat0rio on the related forum topic (<http://forum.qgis.org/viewtopic.php?f=2&t=7834>) it's possible to use the following line to populate the enum widget:

```
SELECT enum_range(null::rainbow);
```

History

#1 - 2011-01-21 02:01 PM - Jürgen Fischer

- Resolution set to *invalid*

- Status changed from *Open* to *Closed*

already fixed in commit:78cc7abf (SVN r15049).
