

QGIS Application - Bug report #3491

Couldn't load plugin postgis_manager due an error when calling its initGui() method

2011-02-14 11:42 PM - vvj -

Status:	Closed	
Priority:	Low	
Assignee:	Martin Dobias	
Category:	Python plugins	
Affected QGIS version:		Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:		Resolution: invalid
Crashes QGIS or corrupts data:		Copied to github as #: 13551
Description		
After updating Qgis to 1.6.0-3 from 1.6.0-2 using OSGeo4W advanced installer (and some new libs were offered), Postgis Manager plugin stopped working: *Couldn't load plugin postgis_manager due an error when calling its initGui() method* Traceback (most recent call last): File "C:/OSGeo4W/apps/qgis/.python\qgis\utils.py", line 147, in startPlugin plugins[packageName].initGui() File "D:/Users/user1/.qgis/python/plugins\postgis_manager\ManagerPlugin.py", line 24, in initGui self.iface.addPluginToDatabaseMenu("&PostGIS Manager", self.action) [[TypeError]]: 'sip.methoddescriptor' object is not callable Python version: 2.5.2 (r252:60911, Feb 21 2008, 13:11:45) [MSC v.1310 32 bit (Intel)] QGIS version: 1.6.0-Capiapo Capiapo, exported Python path: ['C:/OSGeo4W/apps/qgis/.python', 'D:/Users/arctic/.qgis/python', 'D:/Users/user1/.qgis/python/plugins', 'C:/OSGeo4W/apps/qgis/.python/plugins', 'C:\\\\OSGeo4W\\\\bin\\\\python25.zip', 'C:\\\\OSGeo4W\\\\apps\\\\Python25\\\\DLLs', 'C:\\\\OSGeo4W\\\\apps\\\\Python25\\\\lib', 'C:\\\\OSGeo4W\\\\apps\\\\Python25\\\\lib\\\\plat-win', 'C:\\\\OSGeo4W\\\\apps\\\\Python25\\\\lib\\\\lib-tk', 'C:\\\\OSGeo4W\\\\apps\\\\qgis\\\\bin', 'C:\\\\OSGeo4W\\\\apps\\\\Python25', 'C:\\\\OSGeo4W\\\\apps\\\\Python25\\\\lib\\\\site-packages', 'C:\\\\OSGeo4W\\\\apps\\\\Python25\\\\lib\\\\site-packages\\\\win32', 'C:\\\\OSGeo4W\\\\apps\\\\Python25\\\\lib\\\\site-packages\\\\win32\\\\lib', 'C:\\\\OSGeo4W\\\\apps\\\\Python25\\\\lib\\\\site-packages\\\\Pythonwin', 'C:\\\\OSGeo4W\\\\apps\\\\Python25\\\\lib\\\\site-packages\\\\wx-2.8-msw-unicode', 'D:\\\\Users\\\\arctic\\\\qgis\\\\python\\\\plugins\\\\cadtools\\\\tools'] I also get this error when trying to install this plugin after removing it. Just checked with 1.6.0-4 version - problem remains.		

History

#1 - 2011-02-15 12:11 AM - Jürgen Fischer

[[PostGIS]] manager tries to add an entry to the database menu available in trunk and if that fails add it database menu. Unfortunately it only catches [[AttributeError]] exceptions, but no [[TypeError]] exceptions to do that. The change of exceptions is probably due to the sip or [[PyQt]]4 update in OSGeo4W.

But plugins not in core are out of scope for this TRAC. The plugin needs to be updated by it's author Martin Dobias

#2 - 2011-02-15 12:11 AM - Jürgen Fischer

- *Resolution set to invalid*
- *Status changed from Open to Closed*

#3 - 2011-02-15 12:21 AM - Martin Dobias

This issue should be fixed in v0.5.14.

Martin
