QGIS Application - Feature request #351
conversion of ArcView/ArcGIS projects

2006-10-18 09:57 PM - Redmine Admin

Status:	Closed		
Priority:	Low		
Assignee:	Gary Sherman		
Category:	Project Loading/Saving		
Pull Request or Patch supplied:		**Resolution:**	wontfix
Easy fix?:	No	**Copied to github as #:**	10410

Description

It will be important to have a tool to convert existing .apr (ArcView/ArcGIS project files) into .qgs projects.
As they are both text, parsing them should not be too difficult. This would greatly ease the migration of new qgis users.

History

#1 - 2006-10-19 11:52 PM - Gary Sherman

There is/was such a utility that converted from ArcView 3.x to QGIS and other formats but for the life of me I can't remeber the name.

Converting [[ArcGIS]] project files would require an ArcObjects tool since the mxd format is binary and can't be parsed.

#2 - 2006-11-03 10:05 AM - yecarrillo -

You can use a tool I wrote http://gix.sf.net Use it inside [[ArcView]] 3.x to convert views to QGIs projects. Is too old but useful.
