Pull Request or Patch supplied:	No	**Resolution:**	end of life
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	13624

Description

I am testing the raster provider branch. This bug might apply to svn. I am using a vrt which uses an Oracle odbc datasource. I can see the values when I identify it. I can label an attribute, but when I click on open attribute table, I see nothing. Also when I go to change the legend type to unique value, I do not see anything when I hit classify.

History

#1 - 2011-12-16 01:48 PM - Giovanni Manghi
