

QGIS Application - Bug report #3612

Raster calculator not working with new raster providers

2011-03-14 05:51 AM - Alexander Bruy

Status:	Closed	
Priority:	Low	
Assignee:	Marco Hugentobler	
Category:	Rasters	
Affected QGIS version:		Regression?: No
Operating System:	All	Easy fix?: No
Pull Request or Patch supplied:		Resolution: invalid
Crashes QGIS or corrupts data:		Copied to github as #: 13671
Description		
Seems that native Raster Calculator is broken after merging raster_providers branch.		
Tested on r15453		

History

#1 - 2011-03-17 03:46 AM - Marco Hugentobler

There was a problem with the calculator and the new providers which was fixed in commit:c034d19c (SVN r15435).

The few tests I did today worked, so I need more detailed instructions to reproduce this bug.

#2 - 2011-03-17 04:00 AM - Borys Jurgiel

Weird. Tested an hour ago and the result was filled by zeroes. Now the same test passed smoothly. So no more bugs at mine.

#3 - 2011-03-17 05:00 AM - Alexander Bruy

- Resolution set to invalid

- Status changed from Open to Closed

Hmmm... tested now with commit:bc9e7be8 (SVN r15526) and all fine. So I close this ticket as invalid
