QGIS Application - Feature request #3623
Implement comparison operators in the field calculator

2011-03-15 03:41 PM - Borys Jurgiel

Status:	Closed			
Priority:	Low			
Assignee:				
Category:	Vectors			
Pull Request or Patch supplied:	No		**Resolution:**	fixed/implemented
Easy fix?:	No		**Copied to github as #:**	13682

Description

Seem the field calculator still misses comparision/conditional operators, though they're listed in help.

History

#1 - 2011-03-22 05:05 PM - Werner Macho

took out the not working functions - jef suggested it to be moved to query builder help file which has to be written .. have only a scratch version here ..
i guess functions have to be implemented .. something for 1.8?

#2 - 2011-12-16 01:48 PM - Giovanni Manghi

- *Target version changed from Version 1.7.0 to Version 1.7.4*

#3 - 2012-04-15 10:11 AM - Giovanni Manghi

- *Target version changed from Version 1.7.4 to Version 2.0.0*

#4 - 2012-04-18 12:53 AM - Jürgen Fischer

- *Pull Request or Patch supplied set to No*

- *Subject changed from Implemet comparison operators in the field calculator to Implement comparison operators in the field calculator*

#5 - 2012-10-06 02:23 AM - Pirmin Kalberer

- *Target version changed from Version 2.0.0 to Future Release - Nice to have*

#6 - 2015-11-10 06:04 AM - Médéric RIBREUX

- *% Done changed from 0 to 100*

- *Status changed from Open to Closed*

- *Resolution set to fixed/implemented*

Hello, bug triage...

in QGIS 2.13 master, there are the following comparison operators in expressions (so in field calculator): IN, LIKE, ILIKE, < , > , <=, >= , =, IS. Those
operators can be used with conditionnals functions: CASE/WHEN, if and regexp_match.

I am closing this feature request.
