

## QGIS Application - Feature request #3653

### Buffer tool

2011-03-21 04:13 AM - elcuco -

<b>Status:</b> Closed	
<b>Priority:</b> Low	
<b>Assignee:</b> cfarmer -	
<b>Category:</b> Processing/QGIS	
<b>Pull Request or Patch supplied:</b>	<b>Resolution:</b> duplicate
<b>Easy fix?:</b>	<b>Copied to github as #:</b> 13712
<b>Description</b>	
<p>It would be nice if the Buffer tool in the Vector menu allowed to choose between Round or Flat End type when buffering line/polyline features. Since the option "Segments to approximate" doesn't go any lower than 5, the Flat End type would be most welcomed. Flat End type consists of a rectangular line ending with the middle of the short side of the rectangle coincident with the end point of the line .</p> <p>Cheers, Pedro Ferreira</p>
