

QGIS Application - Feature request #3756

Flexible positioning of scalebar/compass

2011-04-17 08:10 PM - whatnick -

Status:	Closed	
Priority:	Low	
Assignee:	Tim Sutton	
Category:		
Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Easy fix?:	No	Copied to github as #: 13815
Description I usually save my maps from the view as image (rather than using print composer). I would be really useful to have an advanced scalebar/compass placement option, as a percentage of the mapview window for tweaking where they show up.

As the print composer allows to place the scalebar wherever you want, having two ways to do it is an enhancement.

#2 - 2011-12-16 12:45 PM - Giovanni Manghi

- Target version changed from Version 1.7.0 to Version 1.7.4

#3 - 2012-04-15 10:11 AM - Giovanni Manghi

- Target version changed from Version 1.7.4 to Version 2.0.0

#4 - 2012-10-06 02:35 AM - Pirmin Kalberer

- Target version changed from Version 2.0.0 to Future Release - Nice to have

#5 - 2014-03-26 11:36 AM - Alexander Bruy

- Operating System deleted (Debian)
- Pull Request or Patch supplied set to No
- Status info deleted (0)
- Category deleted (C++ Plugins)

#6 - 2016-01-09 06:47 PM - Duncan Runnacles

I've finished this and it has been merged into master.

Decorations can now be placed at user defined margins from the corners. I.e. anywhere on the canvas.

#7 - 2016-01-09 07:48 PM - Nyall Dawson

- Resolution set to fixed/implemented
- Status changed from Open to Closed
