Pull Request or Patch supplied:		**Resolution:**	fixed	
Crashes QGIS or corrupts data:		**Copied to github as #:**	13819	

Description

Hi,

I tried this WMS-C server:

http://webapps.comune.trento.it/tile

and QGIS latest trunk complains that "capabilities document contained no layers".

Previous QGIS builds (and 1.6) doesn't show this error and list the correct layers (only WMS-C tiles).

History

#1 - 2011-04-19 08:01 AM - Jürgen Fischer

not reproducable here. Which revision did you test?

#2 - 2011-04-19 10:31 PM - luca76 -

I was using commit:c44776e9 (SVN r15765) (the last of yesterday) self compiled under [[ArchLinux]].

Now I'm on holiday, I'll test it on my return (next Tuesday)

#3 - 2011-04-19 10:53 PM - luca76 -

- *Resolution set to fixed*
- *Status changed from Open to Closed*

now it is fixed (thanks to your today's commit for wms tiles)
