<b>Easy fix?:</b>	No	<b>Copied to github as #:</b> 13960
<b>Description</b>		
<p>QGIS compiled from source.</p> <p>When You try to open SHP or TAB file, the "open file" dialog can't choose the file or directory.</p> <p>There were a little problem in src/qgisapp.cpp .</p> <p>To get properly working code I've modified two lines: 1929 and 1931 replacying:=====</p> <pre>settings.writeEntry("/qgis/UI/lastVectorFileFilter", openFileDialog-&gt;selectedFilter());=====</pre> <p>with:</p> <pre>----- settings.writeEntry("/qgis/UI/lastVectorFileFilter", openFileDialog-&gt;selectedFilter()); settings.writeEntry("/qgis/UI/lastVectorFileFilterDir", openFileDialog-&gt;dirPath()); -----</pre>		

History

#1 - 2006-04-14 08:14 PM - Gavin Macaulay -

- Resolution set to fixed
- Status changed from Open to Closed

I've checked the code, and this problem has been resolved in 0.8, from which we will soon be releasing a beta version.
