QGIS Redmine (QGIS bug tracker) - Feature request #3944
In-commit messages referring to tickets may be wrong

2011-06-05 03:49 AM - Tim Sutton

Pull Request or Patch supplied:	

Description

We tried to preserve ticket numbers between trac and redmine. Unfortunately there were already a few hundred tickets lodged in redmine. So for maximum compatibility, the first few hundred trac tickets have now been assigned high ticket numbers, and the vast majority of tickets will resolve correctly on their original numbers.
