

QGIS Application - Bug report #395

./configure misses missing flex

2006-11-15 08:10 AM - anonymous -

Status:	Closed	
Priority:	Low	
Assignee:	Martin Dobias	
Category:	Build/Install	
Affected QGIS version:		Regression?: No
Operating System:	Debian	Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed
Crashes QGIS or corrupts data:		Copied to github as #: 10454
Description		
<p>I was compiling recent QGIS (svn 15.11.2006) till it failed cause missing flex. This should be detected during ./configure run and not pop up as bug during make</p>

- Resolution set to fixed

- Status changed from Open to Closed

Fixed in . There was already a check for flex and bison, however autoconf doesn't produce errors if they're not found. That's because usually the generated lexers and parsers should exist in sources.
