QGIS Application - Bug report #3965
Wrong use of left/right offset in labels

2011-06-08 11:34 AM - aperi2007 -

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Symbology		
Affected QGIS version:		**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	invalid
Crashes QGIS or corrupts data:		**Copied to github as #:**	13966

Description

In qgis trunk version,

In new simbology the Label can be moved left/right by an offset.

But this offset is not referred to the versus of geometry.

```
        |                |
        |                |
   (right) V (left)  --> instead -->   (left) ^ (right)
        |                |
        |                |
```

History

#1 - 2011-07-05 01:46 AM - Martin Dobias

- Resolution set to invalid

- Status changed from Open to Closed

In the labeling dialog just above the offset you can set the orientation: by default the map orientation is used, you can change it to line orientation in order to get the behavior you are looking for.

If your problem is related to something else please reopen and provide a more detailed description.
