

QGIS Redmine (QGIS bug tracker) - Feature request #3966
Make tickets automatically "watched" when a user creates one

2011-06-08 12:30 PM - Giovanni Manghi

Status:	Closed	
Priority:	Normal	
Assignee:	Pirmin Kalberer	
Category:		
Pull Request or Patch supplied:	No	
Description		
... this would make the use of Redmine more similar to the old trac. Actually even if a user creates a ticket it will not receive any notification if he forgets to click on "watch", which is not very handy.

great, now notifications do work (even if the ticket is not watched?)? They didn't a few minutes ago... I'm confused, probably you can close this.
