

QGIS Application - Bug report #3994

Delimited text plugin does not handle multiple spaces

2011-06-17 01:02 AM - Paolo Cavallini

Status:	Closed	
Priority:	Normal	
Assignee:	Jürgen Fischer	
Category:	C++ Plugins	
Affected QGIS version:		Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 13983
Description		
A file like this:		
label X Y		
mazzano 1 2		
is not parsed correctly. An option "multiple spaces" should be added.

I don't see multiple spaces in the example, but for unusual delimiters you can still use regular expressions. " *" or "+" should catch multiple blanks.
