

QGIS Application - Bug report #4059

building globe plugin fails: 'setenv': identifier not found

2011-07-07 11:09 PM - Alister Hood

Status:	Closed	
Priority:	Normal	
Assignee:	Pirmin Kalberer	
Category:	C++ plugins/Globe	
Affected QGIS version:		Regression?: No
Operating System: Windows		Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed
Crashes QGIS or corrupts data:		Copied to github as #: 14044
Description		
Building the globe plugin under MSVC fails like this:		
2>..\..\..\..\qgis.git\src\plugins\globe\globe_plugin.cpp(634) : error C3861: 'setenv': identifier not found		
I can get past it with a workaround suggested by Google ;)		
@#if (_MSC_VER >= 1400) // Visual Studio 2005		
#include <sstream>		
int setenv(const char name, const char *value, int /*rewrite/){		
std::stringstream sstr;		
sstr<<name<<'"<<value;		
return _putenv(sstr.str().c_str());		
}		
#endif@
