Description		
<p>In order to submit bug reports it'd be useful to be able to copy&paste qgis version (in particular when it's built from git repository). This is not possible as of ... mmm .. [goes looking manually] .. 3ac604f [uff..].</p> <p>The actual version is much longer than just the qgis commit id (includes gdal/ogr version, postgresql version, etc...).</p> <p>So, this item is to make that tab (About) selectable.</p>
