QGIS Application - Feature request #4093
Specify joint style for composer frames

2011-07-18 07:58 PM - Alister Hood

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Map Composer/Printing			
Pull Request or Patch supplied:	No		**Resolution:**	fixed/implemented
Easy fix?:	No		**Copied to github as #:**	14076

Description

Frames for objects in the composer have bevelled joints. Mitred joints are better because you can line up two objects without there being a glitch where the frames join.

Ideally it would be possible to specify the joint style.
