QGIS Application - Bug report #4142
Print Manager Usability Issues

2011-08-05 05:03 PM - Mateusz Kędzior

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Map Composer/Printing		
Affected QGIS version:	2.2.0	**Regression?:**	No
Operating System:	Windows	**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	invalid
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	14122

Description

These problems occur on Windows 7 with QGIS 1.8:

  - after saving map as a image (no matter if it is svg or png format), I need to wait a few second to see once more map in Print Manager window (or even switch between active windows)
  - after remove from QGIS project old and loading new layer, on Print Preview I am unable to see changes. After clicking (in Print Manager) on "Refresh" button only a map is refreshed - legend is still not actual so I need to load once more saved style.
  - Style saved in Print Manager doesn't contain information about number of layers which should be visible on legend

History

#1 - 2011-09-30 05:07 AM - Anita Graser

- Target version set to Version 2.0.0

- Subject changed from qgis 1.8 Print Manager to Print Manager Usability Issues

#2 - 2014-04-06 06:03 AM - Jürgen Fischer

- Category changed from 33 to Map Composer/Printing

- Affected QGIS version set to 2.2.0

- Crashes QGIS or corrupts data set to No

#3 - 2014-06-22 12:25 AM - Nyall Dawson

- Resolution set to invalid

- Status changed from Open to Closed

I can't reproduce issue 1, and issue 2 is actually expected behaviour (set the map to "render" mode if you want automatic live updates). Please open a new bug for number 3 if it's still applicable to current master version.
