QGIS Application - Bug report #423
grass plugin - raster visualization and export on windows

2006-12-05 01:10 PM - feurbano-tin-it -

Status:	Closed			
Priority:	Low			
Assignee:	Gary Sherman			
Category:	GRASS			
Affected QGIS version:		**Regression?:**	No	
Operating System:	Windows	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	duplicate	
Crashes QGIS or corrupts data:		**Copied to github as #:**	10482	

Description

i can't display any grass raster (no problem with grass vector).
i try to visualize them but nothing happen.

if i use the grass shell to export a raster i have this error:
$ r.out.gdal input=CEA_aspect@CEA_dati format=GTiff type=Float64 output=xxx
c:/Programmi/Quantum: c:/Programmi/Quantum: No such file or directory

maybe a problem with the "space" character in "quantum gis" path?

- Resolution set to duplicate

- Status changed from Open to Closed

same problem in another ticket.
quite a big problem, indeed.
