Assignee:	Martin Dobias		
Category:			
Affected QGIS version:		**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	fixed
Crashes QGIS or corrupts data:		**Copied to github as #:**	14212

Description

When exporting a dataset from QGIS, the data browser doesn't refresh. You have to quit and launch QGIS to see the new dataset in the browser.

History

#1 - 2011-09-08 05:44 PM - Nathan Woodrow

+1 It might even be good to wire up a QFileSystemWatcher on the top directory so that there is no need to refresh even.

#2 - 2011-09-30 04:56 AM - Anita Graser

- Subject changed from Data browser, no refresh to Data browser does not refresh without restarting QGIS

#3 - 2011-10-11 11:30 AM - Martin Dobias

- Resolution set to fixed

- Status changed from Open to Closed

Added in commit:de9fb2ce
