QGIS Application - Feature request #4327
UNC SVG paths instead of browse for folder

2011-09-28 01:48 AM - Andy Bates

Status:	Closed		
Priority:	Low

Pull Request or Patch supplied:	No	**Resolution:**	
Easy fix?:	No	**Copied to github as #:**	14264

Description

When adding a new path in Options > Rendering > SVG Paths, it'd be good to be able to either type a UNC path into the path box or change the "Add" dialog box to allow you to browse to a UNC path - currently you can only select folders from your mapped drives.

QGIS v1.7.0 on Windows.

Cheers!

not reproducable here - the browse dialog also includes "Network Neighbourhood", so you can browse for network resources too.

I confirm that under Windows (seven) you can browse the network. I cannot see it under Linux/Gnome, but I guess this is a Gnome issue.
