

QGIS Application - Bug report #4390
Could not find GRASS, vanilla GRASS install

2011-10-16 03:58 AM - Sandro Santilli

Status:	Closed	
Priority:	Low	
Assignee:		
Category:		
Affected QGIS version:		Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 14322
Description		
I've just installed GRASS (svn trunk) and qgis cmake can't find it. Won't be easy to find, as it's installed under /usr/local/grass-7.0.svn/, with no symlinks...		

History

#1 - 2011-10-16 04:00 AM - Sandro Santilli

symlinking grass install dir as /usr/local/grass doesn't help

#2 - 2011-10-16 04:34 AM - Jürgen Fischer

- Priority changed from Normal to Low
- Status changed from Open to Closed

Use GRASS_PREFIX. Not sure if QGIS works with GRASS 7 though.

It still fails to find "vect" library. It seems it was renamed to "vector" in 7.0.

#4 - 2011-10-16 05:30 AM - Paolo Cavallini

Correct, GRASS>6.4.x is not supported
