QGIS Application - Bug report #4477
Export of xml file containing the list of wms servers is not working

2011-11-01 06:32 AM - stefano campus

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Web Services clients/WMS			
Affected QGIS version:	1.7.3		**Regression?:**	No
Operating System:			**Easy fix?:**	No
Pull Request or Patch supplied:	No		**Resolution:**	worksforme
Crashes QGIS or corrupts data:	No		**Copied to github as #:**	14404

Description

I checked in more than one installation of qgis 1.7.1 under winxp the impossibility to save or import a list of wms servers.

pressing the button "carica" or "salva" (in italian version. translation sounds like "import" and "export")nothing happens.

This does not happen with the trunk version that works perfectly.
