

QGIS Application - Bug report #4538  
Line decoration (direction arrow) broke (again?)

2011-11-16 04:57 AM - Sandro Santilli

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Symbology	
Affected QGIS version:		Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution: invalid
Crashes QGIS or corrupts data:		Copied to github as #: 14454
Description		
<p>Not sure if this is an old or new bug.</p> <p>QGIS 1.9.90-Alpha (built from the HF) shows an arrow at the left of a line, but pointing up</p>  <p>Should check with 1.7.2, would be a candidate fix for 1.7.3 if still broken there.</p>		

History

#1 - 2011-11-16 05:05 AM - Sandro Santilli

- File decoration.tgz added

#2 - 2011-11-16 05:06 AM - Sandro Santilli

The tarball contains all data required to reproduce the problem

#3 - 2011-11-16 02:24 PM - Sandro Santilli

- Resolution set to invalid

It didn't broke, zooming in revealed last segment to be really going up. Sorry for the noise. Great to see QGIS getting robust when it comes to directions :->

#4 - 2011-11-16 02:26 PM - Giovanni Manghi

- Status changed from Open to Closed
