<b>Description</b>			
I created a test project named Test and cannot delete it.			
How to do it ?

- Status changed from Open to Closed

The URL for deleting is <https://issues.qgis.org/projects/test-elpaso/destroy>

I've deleted it, because I think only an admin is allowed to do it.

In the case, a ticket has to be opened.

It's a bit funny that a user that has CREATE rights cannot delete its own projects.

Can you please make me admin then ?

I've already shell access to the server if that matters.

Thanks.
