

QGIS Plugin Site - Bug report #4643

New repository updated plugins are not listed in New! section of plugin installer

2011-12-13 11:35 PM - Tim Sutton

Status:	Closed	
Priority:	Normal	
Assignee:	Alessandro Pasotti

Description		
<p>I am not sure where this is managed, but if I push an update to my plugin, and then test with the python plugin manager in QGIS, I was expecting to see it tagged with 'new' or 'updated' but this does not seem to happen.</p> <p>Please bounce it back to me if you think this needs work on the client side.</p> <p>Regards</p> <p>Tim</p>

Hi Tim,

you can first test if the plugin.xml is updated (<http://plugins.qgis.org/plugins/plugins.xml>), if it is (as I'd bet is), then it's a client issue.
