

QGIS Application - Bug report #4664

Above/below labels for vertical up-to-down line swapped

2011-12-17 02:52 PM - Sandro Santilli

Status: Closed	
Priority: Normal	
Assignee: Martin Dobias	
Category: Labelling	
Affected QGIS version:	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution: fixed
Crashes QGIS or corrupts data:	Copied to github as #: 14556
Description	
<p>I can't find the commit that fixed this in master but the bug is about Above/Below not properly becoming Right/Left for a top-down vertical line.</p> <p>It works fine in master. I believe commit:627d25c65f7438541243b9974027f4ceb00d2cc9 was pushed close to the commit actually fixing the issue.</p> <p>It would be worth following ticket 3643 and testing if one of those patches would fix this.</p> <p>The whole thing, once found, should be back-ported to 1.7 branch. Ideally regress-tested.</p> <p>Martin: I'm assigning to you as you were most likely the one fixing it in master so you may have a better idea of which commit did it.</p> <p>Thanks!</p>

Ok,found the commit fixing this:

c37b63a83f9d72223f375a490c6555f0c9c2a015

That's the one I'd like to see in 1.7.4 :)

#3 - 2011-12-19 02:05 PM - Sandro Santilli

I just double-checked and I can double-confirm commit:c37b63a83f9d72223f375a490c6555f0c9c2a015 is the one

#4 - 2011-12-19 03:33 PM - Werner Macho

- Resolution set to fixed

- Status changed from Open to Closed

picked it into release-1_7 for upcoming 1.7.4
