

QGIS Plugin Site - Bug report #4678

snippets: description does show up in sidebar

2011-12-19 08:46 AM - Richard Duivenvoorde

Status:	Closed	
Priority:	Normal

Description		
adding a snippet without tags tells you 'Please correct the errors below' but does not show you the errors (aka you are missing mandatory tags).		
IF you then add the tags and a description: your description does not show up anymore when viewing the snippet		
Ah wait: it does show up: but just below the search field? Is it possible to show it below or above the snippet (a description can be rather large...)?		

History

- Assignee set to Tim Sutton

Tim, IIRC it was you who made the snippets app.
