

QGIS Application - Feature request #4703

GDAL tools: allow clipping using vector masks in batch mode

2011-12-25 01:08 PM - Giovanni Manghi

Status:	Closed	
Priority:	Low	
Assignee:		
Category:	GDAL Tools	
Pull Request or Patch supplied:		Resolution: wontfix
Easy fix?:	No	Copied to github as #: 14587
Description		
Use case:		
I have a raster I want to clip into "tiles" using a vector grid.		
I can create the grid, split it into single polygons and place them into the same folder.		
Then I can open the clip tool, select the folder and have the input raster clipped in batch mode using the masks vectors.		

History

- #1 - 2012-04-15 10:06 AM - Giovanni Manghi
- Target version changed from Version 1.8.0 to Version 2.0.0
- #2 - 2012-10-06 02:35 AM - Pirmin Kalberer
- Target version changed from Version 2.0.0 to Future Release - Nice to have
- #3 - 2012-12-31 01:24 AM - Paolo Cavallini
- Assignee changed from Giuseppe Sucameli to anonymous -
- #4 - 2014-06-12 05:02 PM - Giovanni Manghi
- Resolution set to wontfix
- Status changed from Open to Closed

This is possible now using the tool in btach mode in the processing toolbox.
