

QGIS Application - Feature request #4736

do not create the .gislock file under Windows (as native GRASS now does)

2012-01-02 06:21 AM - Giovanni Manghi

Status:	Closed	Resolution: Copied to github as #: 14608
Priority:	Normal	
Assignee:		
Category:	GRASS	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
<p>Native GRASS do not creates anymore the .gislock file under Windows. This was confirmed by a mail exchange with one of the main GRASS developers: locking under Windows seems to be not fully functional ans so the decision was to get rid of the .gislock file.</p> <p>See also</p> <p>http://trac.osgeo.org/grass/ticket/226</p> <p>The QGIS/GRASS plugin still creates the .gislock file under Windows. To stay coherent with the mainstream GRASS behavior this should not be created anymore.</p>
