

QGIS Application - Feature request #4739

Browser: allow renaming, moving and deleting datasources

2012-01-04 04:38 AM - Filipe Dias

Status:	Open	Resolution: Copied to github as #: 14611
Priority:	Normal	
Assignee:		
Category:	Browser	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
It would be very useful to be able to delete geographic files in QGIS File Browser. ArcCatalog (from ArcGIS) has this feature and many many people find it useful.

#2 - 2012-01-04 09:46 AM - Jürgen Fischer

- Category changed from C++ Plugins to Browser

#3 - 2012-04-15 10:21 AM - Giovanni Manghi

- Target version set to Version 2.0.0

#4 - 2012-05-30 03:22 AM - Giovanni Manghi

- Subject changed from Delete shapefiles and other geographic files in QGIS File Browser to Browser: allow renaming, moving and deleting datasources
- Priority changed from Low to Normal

Changed the title to reflect the missing features in the browser and that are available in popular software like arccatalog and wxgis.

#5 - 2012-10-06 02:16 AM - Pirmin Kalberer

- Target version changed from Version 2.0.0 to Future Release - Nice to have

#6 - 2013-05-13 01:31 AM - Paolo Corti

I see that this was targeted to version X.

Is it that difficult to implement the support for it for 2.0? I think file delete and rename in the browser would make a huge difference.
Just my 2 cents.

#7 - 2015-02-27 04:40 PM - Joel Masselink

I believe this is still an outstanding feature request.

Currently what's a simple work around?
