| Pull Request or Patch supplied: | No | Resolution: duplicate |
| Crashes QGIS or corrupts data: | No | Copied to github as #: 14619 |
| Description | | |
| <p>If in qgis 1.7.3 or 1.9.9 you try to perform an interpolation with the v.surf.spline, there isn't the possibility to select a field containing values to interpolate.</p> <p>So the output message says "Need either 3D vector or layer and column with z values".</p> | | |
