QGIS Application - Feature request #4803
When editing vectors (moving existing nodes/segments) allow see where the nodes/segments where before

2012-01-13 07:20 AM - Giovanni Manghi

Status:	Closed			
Priority:	Low			
Assignee:				
Category:	Digitising			
Pull Request or Patch supplied:		**Resolution:**	fixed/implemented	
Easy fix?:	No	**Copied to github as #:**	14655	

Description

To understand better see the attached screencast (that is about how arcmap performs when editing a particularly problematic vector, but this as nothing to do with this particular request).

History

#1 - 2012-10-06 02:24 AM - Pirmin Kalberer

- Target version changed from Version 2.0.0 to Future Release - Nice to have

#2 - 2014-06-12 03:36 PM - Giovanni Manghi

- Resolution set to fixed/implemented

- Status changed from Open to Closed

it seems that now it works exactly as suggested.
