

QGIS Application - Feature request #4841

New feature: reorganize rules by drag and drop

2012-01-19 02:47 AM - MRick -

| Pull Request or Patch supplied: | No | Resolution: fixed |
| Easy fix?: | No | Copied to github as #: 14678 |
| Description | | |
| <p>In the rule based properties to reorganize the priority of the rules you have to click increase or decrease button. It's ok for a few click, but what if you have a lot of rules and want to reorganize everything? It can take quite a lot of time this way.</p> <p>It is missing a way to set manually the priority number, or more simple, just to reorganize them by a simple drag an drop.</p> | | |

History

#1 - 2012-01-26 01:34 AM - Martin Dobias

- Resolution set to fixed
- Status changed from Open to Closed

Implemented in master branch (with some other updates to rule-based renderer)
