| Description | | |
| <p>When submitting a plugin zip file of about 1.5Mo, I get a server error 500.</p> <p>With the same plugin, gone down to ~700Ko, upload is OK.</p> <p>Tested with atlas plugin.</p> | | |

History

#1 - 2012-01-25 12:40 AM - Alessandro Pasotti

- Status changed from Open to Resolved

Now you should see an error message instead of a 500 (please test and re-open this ticket if still fails).

The message is from:

```
ValidationError( _("File is too big. Max size is %s Bytes") % PLUGIN_MAX_UPLOAD_SIZE )
```

PLUGIN_MAX_UPLOAD_SIZE is currently set to 1048576

If you think that this size is too small, please open a thread on the mailing list, this size was not my choice.
