

QGIS Application - Bug report #4891

WMS layer 'Add' button in wrong place

2012-01-26 06:30 AM - barryrowlingson -

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	GUI	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: end of life
Crashes QGIS or corrupts data:	No	Copied to github as #: 14708
Description		
<p>The 'Add' button to add a WMS layer is outside the 'Layers' tab, and so visible from the 'Server search' tab. Since it doesn't apply to servers it shouldn't be visible from there - clicking it adds whatever layer happens to be highlighted in the non-visible 'Layers' tab at the time.</p> <p>I would just stick the Add button into the Layers tab (and possibly the order tab?).</p>		

History

#1 - 2012-01-26 06:35 AM - Jürgen Fischer

...or in the tiles tab. It's probably better to refactor the wms server search into another dialog.

#2 - 2012-09-04 12:10 PM - Paolo Cavallini

- Target version set to Version 2.0.0

#3 - 2014-06-28 07:41 AM - Jürgen Fischer

- Target version changed from Version 2.0.0 to Future Release - Lower Priority

#4 - 2017-05-01 01:09 AM - Giovanni Manghi

- Regression? set to No

- Easy fix? set to No

#5 - 2019-03-09 04:04 PM - Giovanni Manghi

- Resolution set to end of life

- Status changed from Open to Closed

End of life notice: QGIS 2.18 LTR
