Category:	DB Manager		
Pull Request or Patch supplied:	No	**Resolution:**	
Easy fix?:	No	**Copied to github as #:**	14751

Description

SQLite doesn't support to delete column.

Here's the steps to do this:

1. create another table following the original table's schema,

2. delete the original table

3. rename the new table to the name of original table
