<b>Description</b>		
<p>New symbology svg marker selected (e.g. the tree symbol). then go to advanced 'size scale field' and select a field with numeric data and qgis crashes, completely repeatable.</p> <p>windowsxp qgis 1.9.90. Think this bug has been around for several versions of qgis but could not find it listed in bugs, perhaps i was not looking in the right place.</p>
